# Blüthner Pianos

No one can say how long a  
**Blüthner Piano**  
will last. No one has yet  
seen one that could be  
described as "worn out."

It is SIXTY years since Julius Blüthner made  
his first Piano ; and to-day many Pianos  
of the first period are still in active service.

## The "BABY" GRAND

---

**H**ITHERTO considerations of size have prevented many from realising their ideal—the possession of a Grand Piano. Recent improvements and inventions have enabled some of the leading makers to place on the market "Baby" Grands—instruments which, while they offer practically all the advantages of the Grand Piano, occupy but little more space than an ordinary Upright Piano.

We have a carefully selected stock of "Baby" Grands by

and other good though less-known makers, ranging in length from 56 inches, and in prices from

# Pianola Piano Supremacy

IS DUE TO THE FOLLOWING DISTINCTIVE DEVICES

**Q** Long specialised manufacture of the Pianola has given it a soundness of construction found in no other piano-playing instrument, whilst its world-wide fame has given its manufacturers the pick of the most perfect expression devices ever invented. Unless the instrument you buy possesses the following exclusive devices you have a piano-player inferior to the genuine Pianola Piano.

- (A) The Automatic Sustaining Pedal operates the sustaining pedal.
- (B) The Themodist enables the performer to accentuate the melody over and above the accompaniment.
- (C) The Metrostyle is the exclusive device of the Pianola Piano that enables the performer to play with all the expression of a skilled musician.
- (D) The Soft Pedal Lever (or half-blow) makes the most delicate effects possible.
- (E) The Loud (or sustaining) Pedal Lever may be used to obtain a sustained ringing tone independently of the automatic sustaining pedal.
- (F & G) The Graduated Accompaniment enables the performer to subdue either the treble or bass portion of the accompaniment at will.
- (H) The Tempo Lever controls the Metrostyle device and accelerates or retards the tempo as required.
- (I) The Silent Lever enables the performer to pass over any portion of the music roll at will, without the notes being struck.

Only the Pianola Piano can give you the advantage of these devices and no other instrument is entitled to the term Pianola which is a trade mark

*The Pianola Piano can only be obtained in this district from*

## GOLF BALL

COOMBE HILL GOLF COURSE, KINGSTON HILL,  
SURREY, 26th March 1913.

Dear Sirs,—The 'Challenger-King' Ball you gave me to try is a very fine Ball, better than the ————. Instead of sending me 2 dozen send 4 dozen. You will have a large sale for them, as I think it is the best Ball I ever struck for all parts of the game. I think it will be specially good in summer when the ground gets hard, as I find I can stop it quicker than some other Balls I have tried, and it is a beautiful putting Ball.

Yours truly, (Signed) ALEX. HERD.

**NOTE.**—The above Testimonial is entirely unsolicited, and, unlike many testimonials, is given gratuitously, and expresses Herd's uninfluenced opinion of the 'CHALLENGER-KING' Ball.
